DoubleTree Hilton (Germany)

“We have given this hotel a new life and thoroughly renovated it. Especially the fitness area. We received sound advice right from the get-go. Proper planning was done. Then we were recommended the right equipment. The equipment is of very high quality. Simply a very good, very professional cooperation.”

HANNES DREHER GENERAL MANAGER, HILTON DOUBLETREE BERLIN

Marriott, Maryland (United States)

Grantley Hall (United Kingdom)

“Every supplier was really important for us. In the thought process, we had to look very carefully about who we wanted. We have an absolute obsession with perfection and took inspiration from the best places in the world. We wanted to provide things that people wouldn’t expect in any hotel and are striving to pushing the boundaries of an exciting journey – an experience that is always evolving. Life Fitness products ticked all the boxes. We didn’t just have the engineered product, we had something that was almost bespoke for what fitted into our particular gym.”

RICHARD SYKES, MANAGING DIRECTOR,
GRANTLEY HALL

Stanglwirt (Austria)

“We have noticed that our guests are increasingly asking explicitly for specific equipment or training methods, by paying attention to current trends such as strength training and functional training as well as to digitalization, they ensure that every guest feels comfortable and finds something that’s right for them. What was very important to us was to really address different guest needs, from an athlete during recreation to professional football teams. We have often had the Klitschkos here as boxers, preparing for their fights. We also have individual athletes from various other sports and we really wanted to cover everything within one concept—and now we have managed it.”
