

Produciamo e distribuiamo arredamento per mare e giardino

Qualità produttiva e scelta dei migliori materiali alla base del nostro successo

Una passione che dura da più di 25 anni

Azienda nata per iniziativa di un gruppo di giovani professionisti che, dopo aver effettuato un approfondito studio sulle necessità degli imprenditori operanti negli stabilimenti balneari dei vari litorali di Italia, hanno deciso di produrre attrezzature utili a detti operatori. Tale studio, negli anni, è stato esteso alle aziende di agriturismo e al settore alberghiero di alto prestigio.

Il lavoro collegiale di tutti gli operatori e la rete di supporto creata dall'azienda sia nei confronti dei fornitori che dei clienti costituisce oggi un enorme vantaggio competitivo rispetto ai concorrenti e al mercato in generale.

L'azienda ha mantenuto una crescita costante supportata dalla capacità di offrire alla clientela una gamma sempre più completa di prodotti continuamente aggiornati, ottenendo soprattutto per i clienti vantaggi sostanziali in termini di tempo e di lavoro.

Volendo rendersi utile a categorie professionali molto esigenti e trattandosi di prodotti esposti all'uso di un pubblico molto diversificato, l'azienda ha, sin dall'inizio, dedicato i suoi sforzi per **realizzare e commercializzare degli articoli di alto livello qualitativo.**

Le nostre certezze di oggi sono il frutto di tanti anni di esperienza. La qualità, l'estetica, la raffinatezza dei nostri prodotti sono parte dell'abilità dei nostri maestri artigiani.

We produce and we deliver sea and garden furnishings

Productive quality and choice of the best materials are the basis of our success

**A passion that has been going
on for over 25 years**

Our company was born on the initiative of a group of professional young people that after a detailed study concerning the needs of the businessmen working in the bathing establishments along the Italian coasts, decided to manufacture some equipment for the sector.

Year after year the study was extended to the farm holidays' sector and to the hotel sector of high prestige.

The teamwork of all the operators and the network - the company created both to the suppliers and to the customers - are nowadays a huge advantage as regards competition and market in general.

Our company has maintained a constant growth and we always offer our customers

a more and more complete and continually up-to-date product range so that the customers have substantial advantages in terms of time and work. As our aim was to help very demanding customers and our products are intended for a very different public, we have devoted our efforts to produce and to distribute goods of top quality, since we started.

Our today's certainties are the fruits of many years of experience.

The quality, the beauty and the refinement of our products belong to the ability of our craftsmen.

Nylon jointed hook for Armagi and Condor shaft.

I NOSTRI OMBRELLONI SONO REALIZZATI CON MATERIALI DI PRIMA QUALITÀ CURANDO PARTICOLARI E RIFINITURE

OUR UMBRELLAS ARE MANUFACTURED OF TOP QUALITY MATERIALS TAKING CARE OF DETAILS AND TRIMMINGS

Il palo può essere in legno oppure in alluminio anodizzato. Generalmente è fisso ma su richiesta può essere fornito anche con snodo in alluminio per l'inclinazione.

Our umbrellas can be delivered with wooden or anodized aluminium pole. The frame has generally a fixed pole but on request, it is also available a movable pole with aluminium joint.

Le stecche sono in acciaio verniciato, hanno una lunghezza che va da un minimo di 80 cm ad un massimo di 140 cm. Il punto di aggancio tra la stecca lunga e quella corta è protetto per evitare danni alla copertura.

The painted steel ribs can be 80 cm at least and 140 cm long at most. The coupling point between the long and the short rib is protected to avoid any canopy's damage.

La copertura è realizzata con tessuto acrilico 100% tinto in pasta per garantire la tenuta dei colori nel tempo. Per contenere la parte terminale della stecca alla copertura vengono applicati dei rinforzi a forma di tasca. Le parti laterali delle mantovane sono rifinite con orli.

Our canopies are made from 100% acrylic fabric then paste painted to guarantee the colours during the time passing.

The final part of the rib is contained in the canopy by some pocket-shaped reinforcements.

The pelmets' side parts are finished off with hems.

I SOFFIETTI | BELLOWS

GARANTISCONO UNA MAGGIORE SICUREZZA NELLE ZONE PARTICOLARMENTE VENTOSE E OFFRONO UN GRADEVOLE EFFETTO ESTETICO.
THEY ASSURE MORE SAFETY ESPECIALLY IN VERY WINDY AREAS AND THEY OFFER A VERY PLEASANT AESTHETIC EFFECT
